“ From the moment I met Jimmy we became instant life long friends, he taught me the warehousing end of the telephone industry and moved me along in that career after I retired from the Fire Department. We rode cross country on our Harley's on Route # 66 with 1500 of our closest Harley riding friends and rode to BIKEOKTOBERFEST into Hurricane Irene, and when we got there the roof was blown off our hotel but DAMN we had a great time. We had many more as well to many to list but I loved him like an older brother I wish I could have had.

“ Jim was one of the good ones. He was my boss and friend. I will never forget one very snowy day Jim had a team meeting planned in South Jersey, we were going to ride together from our office in Totowa. When he arrived he told me he was in a car accident, but would not go to the hospital. He had me drive him to South Jersey for the meeting. When he had concluded the meeting. called Dianne and had me take him to the hospital. Talk about a stubborn Italian :). You will be in my heart and prayers always .
Love you,
