“ He was a great boss, and a kind man, who treated me very well. After one of my employees was promoted to a new Small Projects group and they transferred more of my people to a new I&C group In Mecanical Engineering, I suggested that he send me out of Electrical Engineering for career development and bring one of my people back to take over my job. He very kindly agreed and both of the people I sent to Mechanical Engineering got promoted, one took my job, and the other became the Manager of the new Mecanical I&C group. Larry was very kind to honor my request, and it benefited two more of my very deserving employees. I will always fondly remember Mr Kominisk and that very appreciated kindness.

“ Larry and Aimee,

I was so sorry to hear about the passing of your father, Larry. He was a devoted father and grandfather whose love for family was always evident, and his service to our country as an Army veteran speaks to the strength of his character. Please know that you are in my thoughts during this difficult time—may you find comfort in the many cherished memories you shared with him and in the legacy of love, strength, and honor he leaves behind.
